FINISHLYNX CHAMPIONSHIP ELITE PACKAGE FOR ATHLETICS

The **Championship Elite Package** is an all-inclusive athletics timing system with two photo-finish cameras and an IdentiLynx head-on video camera so you can capture 3 different views of the finish line. The system meets all IAAF timing guidelines and enables you to produce accurate, full-color, reverse-angle results.

The reverse-angle camera and IdentiLynx video are especially useful in races where the view of an athlete's torso may be obstructed by another competitor - making it difficult to establish a finish order. In this case, you can see **three different time-synchronized views** of the finish line in order to evaluate a very close finish with accuracy to up to 1/2000th of a second.
