

## FIELD EVENT PACKAGES COMPETITION

The FieldLynx software at the heart of the package will allow complete management of all your field events, from athlete check in, to results integration with your meet management software. This package includes three netbook computers and all the software you will need to administer three field events simultaneously. What is more, this modular package can be upgraded at any time to include a wide range of displays, wind gauges and EDM (electronic distance measurement) technology.

Built in compatibility with existing wired Ethernet networks enables a simple and robust connection to your existing infrastructure for downloading athlete information and uploading results. When site conditions allow, we have even included the AIRLYNX infrastructure to enable wireless communication between the computers running FIELDLYNX and wind-gauges, scoreboards, and external databases.

### EVERYTHING YOU NEED IS INCLUDED:

THREE WINDOWS "NETBOOK" COMPUTERS,  
802.11 CONNECTIVITY ACCESS POINT,  
AMPLIFIED ANTENNA, ALL NECESSARY CABLES  
AND SOFTWARE.

## COMPONENTS

- **3 Windows "Netbook" Computers (Equipped with wired and wireless Ethernet connectivity.)**
- **3 seats of FIELDLYNX – Event Administration**
- **Two seats of AIRCYBER – Mobile Results Access**
- **One seat of CLERKLYNX – Remote Clerking Tool**
- **AIRLYNX Wireless 802.11 Gateway and Amplified Antenna**
- **NetExchange Server License**
- **LYNXPAD Meet Management Software** - available in many languages: English, French, Italian, Spanish, Russian, German  
NOTE: other languages (even character based languages) are available on request.

## FEATURES

- In addition to the standard wired connectivity for uploading and downloading events, package includes stadium-wide wireless capability for data transfer and future expansion to scoreboards and wind gauges.
- **FIELDLYNX** Software suitable for administering all Field Events: Horizontal Jumps, Vertical Jumps, and all Throwing events.
- Fully Configurable Event setup: Rule Books, Advancement, Bar Heights, Attempts, etc..
- Software available in multiple languages.
- Software upgradeable to allow direct data transfer to wide range of displays, wind-gauges and EDMs.

## MOBILE MEET MANAGEMENT WITH NETBOOK COMPUTERS

The **COMPETITION FIELD EVENT PACKAGE** includes three software programs that run on Windows:

- **FIELDLYNX** – Field Event Management Software. The world's most convenient, most portable, most flexible system for administering Field Events, from Athlete Check-in to Results Distribution.
- **CLERKLYNX** – A simple and effective system for forming heats in the stadium at a location other than the main LynxPad event management site. CLERKLYNX downloads athlete names, allows the operator to combine them into heats, and then uploads the new start lists back to the FinishLynx photo finish system.
- **AIRCYBER** – The perfect tool for Meet Referees, Umpires and Coaches. Download all results to your handheld computer, complete with photo finish images, and keep up with events or even resolve disputes in the field, rather than at the timing location.

# FIELDLYNX ~ CONVENIENT, PORTABLE, FLEXIBLE

With FIELDLYNX software on the handheld computer you can connect wirelessly to the computer running LYNXPAD Meet Management software to obtain a list of competitors in an event.

The handheld unit will then allow you to manage the event: keep track of the order of competition, enter results, score the event, and then upload the results back to the main computer - all without entering any information other than an Athlete's marks.

## Remote Access to Event Database

## Simple Event Selection

## Customizable Event Setup

## Easy and Intuitive Mark Entry

## Instantly create Finals from Multiple Flights

Direct Connection to the Meet Management Computer – using either wired or wireless Ethernet communication protocol.
