

IAAF- Approved 3-Camera Timing System (2 Photo Finish Cameras + 1 IdentiLynx) with Advanced Camera & Network Options

The **CHAMPIONSHIP ELITE** Package includes all the components of the **CHAMPIONSHIP** Package, plus:

"There should be at least two photo finish cameras in action, one from each side..." - **IAAF Rule 165:19.20 (2020-21)**

Multiple-Camera Results System – The Championship Elite Package includes two 2,000 fps EtherLynx Vision cameras so you can capture full-color photo finish images from both sides of the finish line. The package also includes an IdentiLynx full frame video camera so you can produce head-on video that is time-synchronized with your results.

NCP Plug-In & SerialLynx Network Adapter – SerialLynx combines with the NCP Plug-in to enable a single FinishLynx computer to interface with multiple serial devices over a wired or wireless network – including displays, wind gauges, etc.

Components

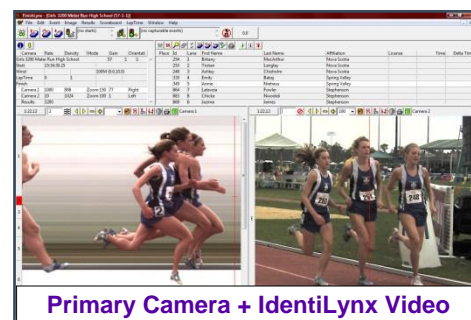

- **Primary Camera: EtherLynx Vision**, 2,000 fps x 1280 pixels, color images, timer-enabled, EasyAlign.
 - **LuxBoost Low-Light Amplification Option**
 - **Internal Battery Pack Option**
 - **Internal Camera Level Option**
 - **Electronic Filter Option**
 - **Internal RadioLynx Option**
 - **C-Mount f1.2, 8-48mm Motorized Zoom Lens (x2)**
- **Second Camera: EtherLynx Vision**, 2,000 fps x 1280 pixels, color images, EasyAlign, High-Res, upgradeable
- **IdentiLynx Full-Frame Video Camera** (30 fps, 720p)
- **Ultrasonic Wind Gauge** (IAAF compliant)
- **SerialLynx (Wired/Wireless) Network Adapter**
- **9-Digit Alphanumeric LED Display**
- **Remote Lens & Remote Camera Positioner (x2)**
- **RadioLynx Wireless Start System**
- **All-inclusive Power, Ethernet, & Start Cable Set**
- **Tripod & Mounting Hardware for Precise Adjustment**
- **Professional Tripod with 3m+ elevated mounting**
- **Built-in Interface to Scoreboards and Wind Gauges**
- **Full-Access to Lynx Technical Support**
- **1-Year Renewable Warranty**
- **FinishLynx32 Multi-Language* Photo Finish Software**
 - **Network COM Port Plug-in**
 - **Automatic Capture Mode (ACM) Plugin**
 - **RadioLynx Wireless Start Plugin**
- **LynxPad Multi-Language Meet Management Software**

* Available in English, Spanish, French, Arabic, German, Italian, Korean, Portuguese (Brazil), Russian, Swedish, Finnish, Chinese (Simp.), Chinese

FinishLynx Championship Elite Package for Athletics

The **Championship Elite Package** is an all-inclusive athletics timing system with two photo-finish cameras and an IdentiLynx head-on video camera so you can capture 3 different views of the finish line. The system meets all IAAF timing guidelines and enables you to produce accurate, full-color, reverse-angle results.

The reverse-angle camera and IdentiLynx video are especially useful in races where the view of an athlete's torso may be obstructed by another competitor - making it difficult to establish a finish order. In this case, you can see **three different time-synchronized views** of the finish line in order to evaluate a very close finish with accuracy up to 1/2000th of a second.

Primary Camera + IdentiLynx Video

FinishLynx Championship Elite Package for Athletics

The Championship Elite Package includes all the components from the Championship package (like IdentiTynx, ACM, and an LED display), as well as a 3+ meter camera tripod and key networking enhancements like Serialynx and NCP so you can integrate serial devices across your timing network.

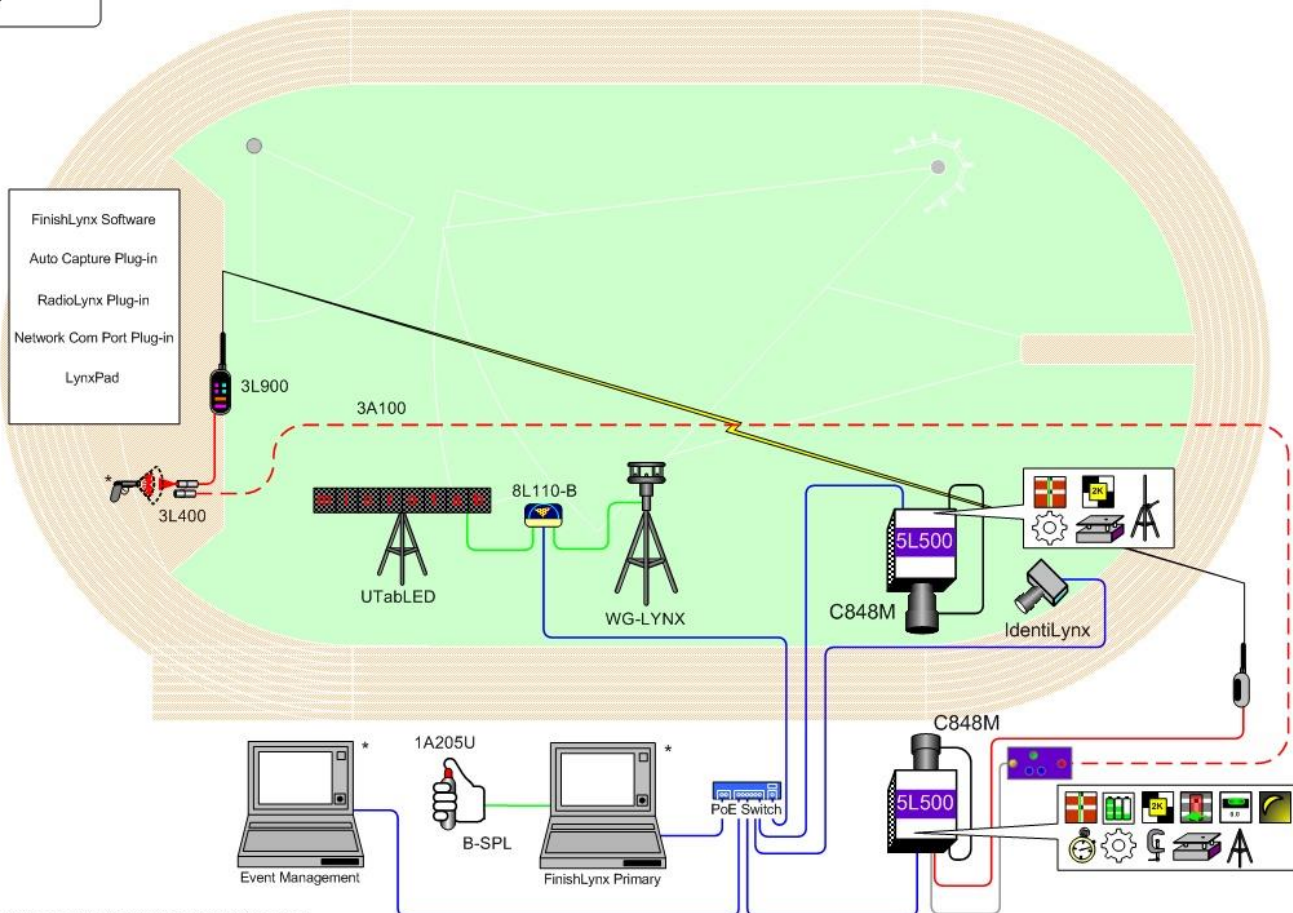

The package also includes two EtherLynx Vision cameras for full color, reverse-angle results. Both Vision cameras include Automatic Capture Mode and come outfitted with remote control features for easy setup and adjustment at your venue's finish line. The primary Vision camera also includes several premium upgrades that will enhance the ease and quality of your race captures.

 LuxBoost - LuxBoost greatly amplifies the brightness during low-light captures. Evening events that were once too dark to capture can be recorded with ease.	 Onboard Level - The on-board level upgrade allows you to monitor that the camera is level directly from within the FinishLynx software.
 Internal Battery Backup - The primary Vision comes with an internal battery pack that allows the camera to continue running in the event of a power outage.	 Electronic Filter Control - This upgrade allows you to enable or disable low-light camera filters on your Vision camera right from within the FinishLynx software.
 Internal RadioLynx – Built-in RadioLynx receiver for a clean and simple set up.	

Athletics – Championship Elite

* Computers and starting pistol not included in package
